DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Jorgensen et al. (J. Org. Chem., Vol. 59, pages 5877-5882).

The reference discloses a compound composed of functional amino acid and tetrathiafulvalenyl group. See compound of TTF-bis-arborol in Fig. 1. The reference compound anticipates the claimed compound.

Allowable Subject Matter

3. Claims 2 and 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 3 and 7-11 are allowed.

Art Unit: 1756

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited in pto-1449 and pto-892 except Borgensen et al. fail to disclose the compound having a tetrathiafulvalenyl group.
